## Accommodation & Support Services

For men & women affected by  
alcohol or substance misuse

[www.thejunctionproject.org.uk](http://www.thejunctionproject.org.uk)

Registered charity No. 1110841

## Who are we and what do we do?

The Junction is an accommodation based drug & alcohol service funded by Bristol City Council's. We provide housing combined with individual support to men & women whose lives have been directly affected by alcohol or substance misuse. Our philosophy here is of a person centred, holistic approach.

Since its inception in July 2004, The Junction has developed an enviable reputation, providing a high standard of support, accommodation and facilities which resulted in the Junction becoming the latest accredited and contracted support provider here in Bristol.

## Description of services

Service user involvement plays a significant part in both the philosophy & direction of our services; all support planning is devised in conjunction with service users. We provide a multi-agency approach in our support delivery, encouraging our clients to engage in the various day programs & relevant services available here in Bristol.

### Types of Services

#### ■ Supported housing

We provide accommodation & individually tailored support for those on substitute therapy, such as Methadone & Subutex, we also provide an assisted withdrawal plan. Because these spaces are already funded, this service is a life-line for those unable to obtain funding for residential treatment or those seeking immediate intervention.

#### ■ 3rd Stage

We provide accommodation for men & women, with lower support needs but who are committed to their recovery and wish to remain abstinent; each resident will have their own support worker, again, the accommodation is of a high standard, well furnished, with Sky TV & Broadband Internet. **Residents need to be at least 28 days clean to access this service.**

#### ■ Move On

We provide 'move on' accommodation for residents that have successfully completed their support program & are waiting to be re-housed through the local authority or who are seeking private accommodation.

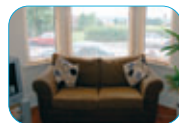

**Accommodation costs are met by housing benefit and support costs are met through our Supported Housing contract.**

## Aims of the service

***'Our aim is not just to provide a bed but more importantly, a reason to get out of it.'***

- We aim to reduce the harm caused by alcohol & drug use to individuals & their communities.
- To provide appropriate & high quality support.
- To help clients regain control of their lives.
- To ensure those completing their support programme here are equipped with the skills needed to maintain independent living.

We aim to ensure our services are accessible, relevant & appropriate to potential customers from all sections of the community.

## What we provide

- A comprehensive needs & risk assessment
- A structured support programme
- Regular 1 to 1 support sessions
- Weekly house meetings & Workshops
- General residential support & Advocacy
- 24 hr access to a support worker
- Service user involvement forum
- Support to access voluntary work, training, education & employment
- A clean, modern, well furnished house
